# OUR PROGRAM

A Year at Banzerini House: Shaping Future Professionals

*Our curriculum is meticulously crafted to guide each student through **the entire season**, culminating in the final production.*

We enroll students for the **entire season** because it mirrors the reality of the industry, instilling in our students the value of commitment, teamwork, and creative exploration. **Students will be taking dance, acting, and singing classes weekly.**

## Audition Piece

At the start of the season, **students undertake an audition piece that they will refine throughout the year.** They explore various audition styles and develop a strong, versatile piece to add to their repertoire by season's end.

## Summer Season

During the summer, we offer a **comprehensive training program** where students delve into the fundamentals of their craft. Advanced students receive instruction from industry-trained professionals, gaining insights into what it takes to succeed as a professional. **Our four-week summer workshop** immerses kids in music, dance, and acting, providing a well-rounded education.

## Fall Season

The fall season focuses on teamwork, character development, and script analysis, all of which are applied to our company show and junior show productions. Company members are required to audition for all three fall shows.

# OUR PROGRAM

At the beginning of fall, students undergo their first audition, experiencing **group auditions** and gaining insights into the audition process for larger casting calls. **Their performance in music, dance, and acting** during these auditions influences their placement in the shows. We then refine their audition pieces in weekly classes, preparing them for the winter auditions.

**Winter Season**

We start with our annual production of “The Best Christmas Pageant Ever”, where every student must participate, emphasizing the importance of community. In January, we will have our winter audition to cast for the spring shows. Only the most advanced and dedicated students participate in our short film, gaining firsthand experience on a professional set alongside industry professionals from Los Angeles.

## **Spring Season - What We’ve Been Working Towards!**

Our **Kids’ show** will kick things off, seeing our younger students taking on leading roles, while our older students put their tech skills to work behind the scenes.

Our **company show, a full-length musical or play**, follows, featuring our company members and professional actors in adult roles.

**The final audition is a pivotal moment**, with a panel of industry judges evaluating each student's performance. It marks the culmination of their hard work and preparation, determining their continued involvement with Banzerini House based on their past evaluations and performance during the audition.
